29th September, 2024

NAME: SATGURU OVERSEAS GLOBAL EDU FAIR VISIT

DESCRIPTION: The Satguru Overseas Education Seminar, held at Orchid Hotel, was the biggest global education fair for students looking to study abroad.

The event started with personalized counseling, where Satguru's counselors gave each attendee tailored university recommendations based on their study plans. This guidance helped students focus on universities that best suited their goals.

After counseling, participants met with representatives from top universities in the UK, US, Europe, and Australia.

The delegates shared key details about their institutions, including tuition fees, courses, scholarship options, and unique programs, giving students a clear view of their options and what each university could offer.

At the end of the event, attendees also received free goodies as a token of appreciation for their participation.

OBJECTIVES: The SOE Fair provided students with personalized counseling and university recommendations tailored to their study goals and preferences.

It offered detailed information on universities from the UK, US, Europe, and Australia, including tuition fees, scholarships, and programs.

Direct interaction with university representatives was made possible, enabling students to clear doubts and make informed decisions about studying abroad.

The fair helped students explore a wide range of global education options and identify the best-fit university for their academic and career aspirations.
