# SL- I'll NEVER Follow the traditional copywriting again….

Why you shouldn't either

A huge component of how you've been taught to do copywriting is wrong.
And if you want to make you copy jaw-dropping conversion rates, you're gonna want to consider making this changes

Most of the people told you that in order to get stellar result, you need to:

1. Follow the same old step-by-step formulas.
2. Stick to tired cliches and templates.
3. Play it safe with bland, cookie-cutter content

And in my experience, this is about as efficient as chopping down tree with a butter knife.

I don't follow the conventional way. I don't follow the herd, and I usually only employ strategies that achieve much better results than traditional methods.

And so do my student does…..

If you want to know EXACTLY how I generate MORE conversion by following LESS traditional methods, it;s not a secrete anymore…
