

The Giant Whale attack

My Writing goal (from your Goals slideshow): 2A
My style of writing: Narrative
Planning/Thought Shower: Characters: Huge animal Charlie, Zac, Zac's dad, Zac's mum, Charlie's dad, and Charlie's mum. Setting: Sea Problem and a solution at the end and a happy ending and also adjectives and verbs.

The Giant Whale attack

One day 2 friends were going fishing at sea in a tiny boat. They were catching fish and they caught 5 little tiny fish. After a little while there "dad's called out "Charlie Zac" come on we have to go home. Charlie and Zac got out and got home really safely. The next day they woke up and they started to eat breakfast. Then they changed into their clothes for fishing.

They took their boat and put it in the sea and hopped in. Their "dad's said don't go too far and then they said Ok. When they were rowing suddenly Zac spotted something big and hungry coming to attack them. "Charlie" said Zac there is a really big animal coming to attack us!. Quick hurry up call for help. I can't call for help, the dad's are gone home and plus I don't have signals.

Ahhhhhhhhhhhhhhhh! the animal is so close now I have no way to escape. It is a huge whale shark that has opened its mouth. Ahh!. pump! Zac are you ok yeah where are we Charlie. I'm afraid we are in the huge whale shark's stomach. Yuck! It smells like fish and that is my dad's boat. How will we get out of this really big creature's mouth Charlie I am so scared in here I miss my mom and dad so much.

Try now you never know you can have signal. Oh my gosh Zac we are not at home that we can have wifi we are in a creature's mouth. Wait a minute what's that sound it's our dad's yay!. But the problem is that even our Dad's are stuck with us oh.

Wait a minute, said Charlie I know how we can get out. Does anybody have a knife? Yes there is one here in the Whale's mouth over there. First we need a boat so we can get the boat out and we can sit on it and row it. I will jab it when it is sleeping from it's top and then one by one we will climb out. I will climb out first and then let down a rope for you guys to climb out of. Ok sounds good Charlie you are very smart. Come on let's go do the plan. Wait a minute what happened we don't even have a rope.

Suddenly... Ahh we are starting to move I think the big shark is awake now it is so dum being in here. How about we make a slide with the boat over there and make the slide till the hole up there that Charlie made. Great idea Zac. So come on let's get to work before the big creature (Whale shark) eats another human or animal in the water. We will also have to make a ladder as well.

At Home...

Do you think Charlie and Zac are ok? Of course they are. Stop being silly, the dad's are with them. But also you never know what can happen if they are stuck in a big and huge creature's mouth and then they have to stay there forever and then when their cousins come tomorrow they will ask and I will have to say they are in a huge creature's mouth.

Back at sea in the creature's mouth...

Finally they have made their slide and their big and tall and long ladder. Then all of them climb the ladder and then they manage to get out. But then suddenly Zac fell into the water and then he made such a big and loud voice ahh and then the creature notice's them and then he eats them again, only Charlie and Zac. Then their dad said we are just going to swim and then go back home and then call for help.

The boys that are in the creature's mouth the creature even broke their slide except the good thing was that the creature didn't break their tall ladder. "Zac" said Charlie in such an angry voice why did you make such a loud voice. Um I was slipping off the creature's skin it was so slippery and then I had to say ahh because if I didn't then you guys probably won't even notice me and then probably I would have drowned by now and I would have died by now.

Back at Home...

Knock Knock Zac's mum opened the door in such a fright. Oh thank goodness you guys are safe. So where are Charlie and Zac? Um well they um well what asked Zac's mum they are in a big creature's mouth at the moment. Oh my goodness said Charlie's mum and then she fainted. Zac's mum took Charlie's mum to her bed and then got a cloth and wiped it on her forehead and she put a cloth on her forehead with medicine on it to make her feel better.

Back at sea in the creature's mouth...

It's alright Zac don't be upset I forgive you. You do said Zac in such a loud voice thank you you are the best friend I have ever had. Na it's really nothing. Look, the slide is still here. Let's climb through the hole. They climbed through the hole and managed to escape and get back home. Charlie's mum woke up and then she was so happy to see her son Charlie. Where were you Charlie? We were in a huge whale shark's mouth. their cousins arrived just in time and they had a big celebration in England.

They had fishing problems and then they had a big celebration and went to England for a holiday at the end and their cousins came with them to England and it was a long day.
