

SERRA DA CAPIVARA

National Park

Besides of being one of the greatest research centers, that tracks the history of the American man, The National Park of Serra da Capivara, is located in-between two endemic and unique Brazilian ecosystems: The Cerrado and The Caatinga - The strong aridity of this region and its exotic species, makes the "Sertões" a place Worth visiting. The thousands of rock paintings with very good quality, in the region helped to study the human currents in America and the creation of a fantastic museum – The Museum of American Men.

SCPKG#01 = 4 Days & 03 Nights: SERRA DA CAPIVARA NATIONAL PARK & MUSEUM OF AMERICAN MAN
