

Project Revision Directions

1. Complete your revisions on your project and add revision to your title. For example:
 - a. Original file - ***wiant_Poster.psd***
 - b. Revised file - ***wiant_PosterRevised.psd***
2. Place both files into your Final folder. For the above example I would place both files into my Poster folder that is located in my Final folder.
3. After you have completed any revisions to your project, please fill out the [Revision Form](#) so Mr. Wiant knows to grade your work.
