

RAINMAKER ASSIGNMENT 2-6 WEEK PLAN

- I will need to relearn the fundamentals of outreach, and apply that to the dream 100 method.
- Outside of the dream 100 method I must send 3-10 outreaches PER day, and or 2 well thought out outreaches per day + G work session
- My current client cannot handle more customers as she already has 400 on a regular schedule (I may need to come up with a separate idea in total to bring her in cash)
- I have a sales call later today (TOP PLAYER) Today is all about research so I can provide her THE BEST battle plan (This includes using market trends that NO ONE in the niche is taking advantage of)
- I also have a rescheduled meeting with 2 real estate agents on friday. (They want social media marketing) (For them I would need to research the top players and adjust their strategies to test a new strategy I'm in the process of making.

Basic plans

- Top player research for 2 leads
- Use my resources to come up with ideas to take advantage of the ever changing market.
- Close 2 leads
- Come up with an idea to upsell to my current client that will generate her more money
- Use my current cash to purchase any outside resources that will help me achieve my goals faster.

- Send 3-10 or 2 outreaches per day (Coupled with G work sessions throughout the day)
- I've noticed my health has started to decline as I've started to intake less carbs + Less protein + less testosterone happy foods. (go through Alex's campus and go through resources + Ask the captains specific questions on X Y Z)
- War mode once I have landed 1-2 more clients.
- Intake more coffee as I've found that doubles my productivity.
- Relearn aspects in the copywriting campus to further strengthen my arsenal when it comes to my weak points (Actual outreach, Market research, Website copy)

I WILL UPDATE & ADAPT THIS PLAN BASED OFF OF FUTURE OUTCOMES.

(Wrote this quickly so I will definitely have to go back and adjust + add to this plan)
