## NEW MUTANT CURE LAW

Yesterday afternoon, Mayor John Battler (27) performed speech at the City Park, announcing a new law. Mayor Battler sadly stated that recently government's humble attempts to live in unison with mutants were not appreciated, hinted by the increasing criminalities done by mutants.

Therefore, the government had developed a cure for people's mutations. Mutants of Slums' Kitchen are demanded to submit themselves to the local precinct to be cured. Battler stated that mutation is a sickness that needs to be further researched and cured for the better. "My mentor's dreams and hopes were to allow men and women of this city to live in safety, without fear. Without fear for their lives by an increased criminal activity coming from those capable of truly horrendous things,"

## BAROK VON ZIEKS GOT MURDERED AGAIN

Around the beginning of August, City of Slums' Kitchen has just been surprised by the return of Barok von Zieks, the founder of Mutant Control Facility (MCF) after being reported to be dead two years prior. Yet this morning (30/9), precinct reported that they have found the body of Barok von Zieks in his own private underground laboratory, under the ruins of MCF building.

"We received phone call past midnight, about a dead body in a basement beneath MCF." One of the officers stated, "We never managed to get the caller's name. When we get here in the morning, it turns out to be Mr. von Zieks."

The victim was found with his throat sliced open, with two bullet wounds and a deep cut on his hand seemingly from a long sharp weapon. His signature blade, which he used to carry around was nowhere to be found.

Considering the well-hidden place of death, the investigators theorized that the culprit might have been the mysterious man who called the precinct about the dead body, or the recently escaped prisoner I.L, who was known to be with a mutant who can teleport to places..

## THE HEIR WAS FOUND DEAD

The Slump's Kitchen shall mourn, now that the famous, uprising mayor candidate: Kiyotaka "The Heir" Ishimaru was found dead two days prior (8/8) at his residential home. Precinct confirmed that all evidences point towards a murder. He was believed to have been poisoned to death, for traces of Potassium Cyanide (KCN) was found all over his cup.

The main suspect, The Heir's own butler, Theodore Clemmings was arrested soon after. Precinct stated that Clemmings was known for his pro-mutant views, which are in contrast to Ishimaru's mindset and ordeals, thus being possible motive of the murder. Other possible motive points to the recent public threats from the mutants--aimed to The Heir, with Clemmings being involved. ## BEHIND THE DESTRUCTION OF MSC BUILDING

The most recent tragic incident of Mutant Support Corp. (MSC) quite left a scar for the city. A school was built for mutant children and got destroyed. Hundreds of worker and children was killed in the destruction.

A reliable source *which refused to be named due to the sake of public safety*, decided to speak last night (8/9), as to why MSC building **has to be destroyed**. They revealed the truth of MSC, being a public organization secretly supporting an anti-government, rebellious group of mutants known as *the Brotherhood*.

The brotherhood had been operating against the law, causing major destructions in the city and even performed mass murders and prison breaks. The threats towards The Heir and his murder are most likely their wrongdoings as well.

Apparently, MSC had been *secretly supporting* The Brotherhood. They built the school in order to gather and train more mutants to *join* the brotherhood, to act against the law and government. "Brotherhood are obviously against discrimination towards mutants, thus the MSC's 'Equality' propaganda."

Seeing this as a potential threat to the city, the reliable source stated that RED Tide had no choice but to stop and destroy the facility..
