To Whom It May Concern:

Without reservation, Jori Dabill would be an excellent teacher for your school community. She is a highly skilled educator who brings passion and commitment on a daily basis and a person who has the vision to focus on what matters-students.

I have worked and known Jori for over five years at La Jolla Elementary and currently at Franklin Elementary STEAM Magnet schools and can attest to the difference she has made and I know that her background, commitment and experience will ensure that she is an exceptional teacher and education leader. Jori is someone who I will continue to be a close partner in education. She is a steady worker, an individual who is highly focused on her goals and instruction. She is never idle. Jori is a dynamic teacher who maintains the highest standards of excellence. She strives to continuously improve and strengthen her expertise and knowledge within the educational arena. Never does she lose sight of her commitment to students.

Her passion for education is evident by her personal endeavors to attend enrichment courses and workshops and to seek educational opportunities. I am impressed by her interest, energy and enthusiasm. She is a dynamic teacher and one of the best math teachers I have ever seen.

There is no doubt in my mind that the academic achievement and success of the students at both schools, most recently Franklin STEAM Magnet Elementary School, is in part due to Jori's expert teaching. She served on several committees including School Site Council, Site Wellness Committee and Site Governance Team. She worked diligently to create a myriad of student showcases and presentations of student work throughout the school year on campus. Her positive attitude contributes to our school community making her such a pleasure to work with each and every day!

Jori successfully works with her peers. When her co-workers have asked for her help, she offers her assistance in a cheerful and positive manner. Jori has a sunshine personality. She is patient, understanding and kind. This is evident in her wonderful rapport with students, teachers, parents and the school community. She transformed her fourth grade GATE cluster classroom to a visually appealing environment that supports student learning. At Franklin Elementary STEAM Magnet School, teachers must help with a variety of tasks and responsibilities. Without hesitation, Jori has stepped up to the plate by implementing a variety of Educational Management Platforms such as Google Classroom and Class Dojo, which she expertly uses with proficiency. Her use of technology to enhance the learning in her classroom is inspiring. She did this same amazing work at La Jolla Elementary School as a fifth grade teacher. She is an active and productive participant in her grade level professional learning community. No project is too big or too small for Jori. She has successively been a part of the work in a variety of school-wide initiatives such as Benchmark Advanced, Envision and District Math Units, Critical Seminars in Literacy, School-wide use of Exit Slips, Growth Mindset/Character Strengths, and Student Learning Partnerships.

Jori would be an asset to any school program. She would provide outstanding instruction and be an enthusiastic learner. Should you have any other questions, you are welcome to contact me at [REDACTED] or via email at [REDACTED].

Sincerely,

Melissa Roy-Wood
