Manuscripts sent are the results of research with a number of words of 3000-9000 words, without bulleting and numbering. Journal manuscripts are sent using A5 size paper

format ( 14,8 x 21 cm), with a top margin of 2 cm, bottom 2 cm, left 2 cm, right 2 cm.

The introductory section contains the research background raised in this article, related studies, a distinction from previous studies so that the novelty of this research is illustrated. The introductory section also contains research objectives, research methods used. The introductory content ranges from 1000-1500 words written in 12 pt Garamond font, normal, justify margin (justified right and left), with 1 space. The whole writing is in paragraph form without bulleting and numbering.

In the Results and Discussion section, each research finding can be used as a sub-title which is then analyzed. Overall, the discussion section contains around 2500-6000 words, written in 12 pt Garamond font, normal, justify margin (justified right-left), with 1 space.

The discussion section can be equipped with tables or figures to provide further explanation. The writing and table numbers are placed at the top with normal Garamond 12 letters, centered, 1 space. Table lines are simply horizontal lines at the first and end of the table, delete vertical lines and horizontal lines in the middle of the table. Fill in the table using normal Garamond 10 letters,

margin table as needed. If the table comes from another source write the source at the bottom left of the table. Example of writing a table:
