Tool Hour

11:30 - 1:00 PM @ the TTC tent

Join us for an hour of building community, learning about trail tools and ask any questions you may have to empower you in your stewardship efforts on your own team and local trails! We will explore what each tool is used for and how to choose the correct tool for the task at hand. This knowledge should prevent improvisation with tools on the trail and increase safety by selecting the right tool for the job!" We will also discuss and demonstrate cleaning and sharpening of tools. A sharp tool is a safe tool!
