

Tender Heart
By Averie Rivera

If you have to break my heart,
at least warm it up first.
It'll be more tender that way.
I have the tools to fix it,
but I'd rather work with mud than granite.

If you have to break my heart,
at least fill it up first.
It'll be bigger that way,
and there'd be more pieces to pick up.

Time doesn't heal all wounds
it only mends them.
Like using tape instead of glue.

So, If you have to break my heart,
at least do it right.
