

Fall 2021

Updated volunteer guidelines for funding requests:

Troy High Athletic Boosters Purpose:

We are a volunteer organization made up of parents and friends of THS student-athletes who have an interest in supporting and improving the varsity sports programs through the Troy High School athletic department. Our goals are simple: Have fun, support our kids, improve the student-athlete experience, promote school spirit, and raise money through a variety of fundraising activities.

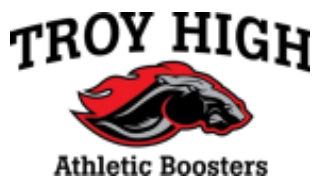

To that end, the Athletic Boosters have provided funding of over \$60,000 over the last 5 years to student-athletes and their varsity sports programs. However, the Boosters can't function or support student-athletes and sports programs at Troy High without a vast group of volunteers.

To secure the future growth of the THAB and support for Troy High student-athletes we have updated our volunteer guidelines.

- 1) Varsity Sport Programs are able to apply for funding requests, we do not do funding requests for club sports.
- 2) In order for any of the program's funding requests to be considered the program needs to have representation at our monthly meetings. **We will not be able to grant funding requests without participation in the program. We will need two volunteers:**
 - a) One team parent who will work in tandem with the coach - communicating with the parents in the program (preferably an upperclassmen parent)
 - b) Parent liaison (preferably an underclassmen parent) that will attend the meeting. The parent liaison can be the same person or this role could rotate within the program to get others involved.
- 3) At least **one parent** of each student-athlete is requested to volunteer for at least one event in the concession stand during the year. We do not want a parent to miss their own child's game and suggest volunteering during a different sport, or level, i.e.- Varsity, JV, Freshmen. Many of us who volunteer with THAB also suggest volunteering in your athlete's "off-season" at Troy High School.

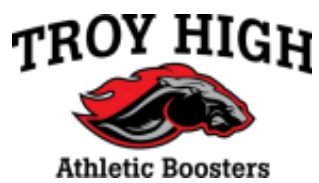

There is natural attrition due to graduation; the pandemic has added to our challenges, reducing our current board to a less than ideal amount of volunteers. In addition, there are other volunteer opportunities available to people besides working at the concession stand. We will need people to purchase items for the concession stand, help with updating the Sign-Up Genius, helping with social media posts (Facebook & Twitter), and other opportunities that arise in the school year.
