Welcome to the world of financial freedom.

I'm proud of you for making the right decision.

As I mentioned earlier, I have helped many people to achieve success.

(Which you can check out on my page in the link below)

And that's what I want to show you and teach you how to do.

First of all, the book.

You'll learn about the secret of how you've been misled by society and YOUR parents.

And learn one of the most important aspects of making money.

In the upcoming emails I will talk more about:

- Who I am and how I built my success
- The steps you need to take to build your success
- Mistakes you might make
- Give you tools to progress
- Motivate you
- And much more

I am happy to guide you on your journey to quit your job and build your success.

How bagels made me quit my job.

And start making 20k a month...

My first and last job was at a smoothie stand at a gym.

Where I would spread cream cheese on bagels for members of the gym

At one point, I was thinking to myself.

Is this what a job is? Is this what people spend most of their lives on?

Crawling out of bed every morning to go to work.

Do the same thing day after day, feeling dead inside.

Only to make enough to survive without satisfying their needs.

And making someone else richer.

This ladder wasn't for me.

I wanted to spread cream cheese on my own bagels.

Didn't take me long before I quit that job.

But I had to figure out another way to make an income.

That led me to realize...

I'm good at basketball.

And so I started teaching other kids basketball.

I made more than double what I used to at the smoothie stand.

Fast forward, I discovered copywriting.

Through copywriting, I was able to start making 20k a month.

While still in college!

I felt like I was the richest guy on the planet.

That was the starting point of my journey.

There have been mistakes through the years, hard work, ups and downs.

One major mistake was when I stopped being consistent.

I lost everything and had to start from the beginning.

You HAVE to stay consistent.

Bit by bit, brick by brick.

But now I'm here making 8-figures and enjoying my life how I want.

My goal is to teach other people to be able to achieve this too.

Quit their repetitive old job and replace it with an exciting new life.

But with fewer mistakes and a clear path to your goal.

I want you to be able to quit your job and experience life at its best.

What you need to know to start your financial success journey.

How to know your next step on your path to success.

The first question that arises for most people is...

Okay, I want to become financially free, but where do I start?

And it is a good question.

They don't teach you that in school.

Your parents don't tell you that, because they don't know.

And if they knew you wouldn't be here reading this.

So, where do you start?

Create some pyramid scheme that's gonna make you a bunch of money?

Learn some secret tricks on how to win at the casino every time?

The truth isn't that complicated.

There's no secret hack or a specific business or a product.

In fact, you encounter and use this method daily yourself.

Are you ready to learn the truth?

Or maybe you don't have what it takes to be successful?

But if you are really determined.

And want to achieve all your dreams and goals.

You HAVE to possess a valuable skill.

What does it mean?

When you need plumbing work done...

You call a plumber.

Because he has the skill that you need, a skill that is valuable to you.

In the previous email, I talked about how I made 20k with copywriting.

For those who are unaware, it's basically marketing and writing ads.

Copywriting is a highly valued skill.

It takes a lot of practice and knowing what you're doing.

But you can double the profit of a business.

High value to them, high income for you.

Have you seen a business that doesn't want more money?

Now that you know the formula to make more money...

You can go out and make as much money as you want.

But you still need to learn the skill, right?

Why aren't you making any money yet?

Maybe you're happy with your life the way it is?

I've given you the key elements to go out and make money.

But maybe you're feeling lost.

Unsure of where to start.

If only you had someone by your side.

Who could tell what steps you need to take.

What are your biggest mistakes?

Why are you not making any money?

Wanting to make money is not enough...

I want to share something with you.

It's going to help you massively in your journey.

Years of my hard-earned experience.

Unforeseen mistakes that took me two steps back.

All the tricks and secrets I've learned from different sources.

Everything that led me to where I am today.

Enjoying my life the way I want to while making 8-figures.

Now it's your turn to take control of your life and achieve your success.

Transform your life: Make money online.

P.S. If you think you are not the right person for this, you're WRONG. People in positions worse than you have built their success with my help. Are you ready to take action and achieve YOUR success?

Stop spending your life on work and start making money online!

How much of your life will you spend working?

Imagine if you could turn your life around.

Make it the way you want it to be and make it worth living.

If you could decide how you spend every minute.

Have the income to satisfy your needs.

Travel anywhere, any time, with who you want.

Achieve the goals you set for yourself.

Treat your near ones the way you want to.

Be the person you desire to be.

You could be sitting at the beach now reading this email.

Feeling how the sun warms your face, how the wind gushes through your hair.

Enjoying a refreshing drink and making more than you do now.

Or you can continue living your life the same old way.

Barely getting out of bed for another day at work.

Come in to work to be told what to do.

Spending your day feeling bored.

Listen to the lame stories of your coworkers.

Feeling like you're on the verge of a nervous breakdown.

The worst part is when you unintentionally break down on your close ones.

It's not your fault.

But you can become better, and this is your opportunity.

It's up to you to decide if you want to keep dreaming about achieving.

Or take control of your life and achieve your dreams.

Stop dreaming of success and achieve it!

P.S. How many more opportunities will you let go before it's too late?
