Project Close-out Report

Challenge Setting	Fund12: **[Cardano Open: Ecosystem](#)**
Name of project	**[C2VN] Developing the Blockchain Lecturer Team at Universities in Vietnam**
URL in project catalyst	https://projectcatalyst.io/funds/12/cardano-open-ecosystem/c2vn-developing-the-blockchain-lecturer-team-at-universities-in-vietnam
Project ID	**1200003**
Requested	ADA 41,250.00

Name of project manager:　　　　**Hieu Nguyen Van**
Date project start date:　　　　　　Jul 12, 2024
Date project Tentative complete date:　Sep 16, 2024
Report Date: Sep 16, 2024

KPIs

Challenge's KPIs:

- Education sessions for Vietnamese students and lecturers to benefit the Cardano ecosystem.
- Need for continued development after Catalyst Open to ensure sustainability.
- Open source approach with publicly accessible documentation such as a short paper.
- Uniquely addresses the need to educate the Vietnamese community about Cardano.

Project's KPIs:

- Number of offline lectures.
- Number of document lectures.

- The total number of video lectures at the sharing session was published on Youtube.

Key achievements

Number of lectures:
- **There are a total of 3 introductory sessions and 9 training sessions for instructors.**
- [Total 10 video](#)
- [Total 31 slide and Outline](#)
- Total 1612 minutes of video

Youtube channel: [Cardano2vn](#)

Key learnings

Through the project "Developing the Blockchain Lecturer Team at Universities in Vietnam," we have identified several key lessons:

- **The CBCA course from the Cardano Foundation:** This was the main content of the program and provided significant value to university lecturers, helping them master important concepts and skills in the blockchain field.
- **Transition from Online to Offline format:** Shifting from online to in-person training was a smart decision, as it created better opportunities for interaction between experts and lecturers. This made the training sessions more engaging and allowed for a deeper understanding of the course material.

However, alongside these advantages, organizing the training sessions offline also presented some challenges:

- **Limited number of participants:** Only lecturers from Hanoi and northern regions were able to attend, which restricted participation from lecturers in other areas.

- **Timing of the sessions:** The training had to be scheduled during the summer, when lecturers were free from teaching commitments, to accommodate their availability.

What's next?

- Continue to support the community in the [Cardano2vn Telegram group in Vietnam](#) and the [zalo group of lecturers](#)
- We will organize these courses and advanced courses with lecturers at universities in Vietnam.
- We accompany lecturers to guide students to conduct scientific research and develop applications on the Cardano blockchain.

Our thoughts

- Catalyst is a non-profit organization that provides funding for innovative and creative projects with the potential to make a positive impact on society. Participating in a project funded by Catalyst is a great opportunity for us to realize our ideas and projects. The Vietnamese cryptocurrency community has an official and easy way to access the Cardano ecosystem.
