

Privacy Policy for LeenCode

Effective Date: 7/12/2025

LeenCode respects your privacy.

We do **not collect, store, or share** any personal data or user information. The app operates entirely on your device and does **not connect to any external servers, APIs, or third-party services**.

What Information Do We Collect?

None. LeenCode does not collect any information—personal or otherwise. We do not track your activity, usage, or behavior.

Do We Use Third-Party Services?

No. LeenCode is a fully self-contained mobile application. It does not use third-party SDKs, analytics tools, advertising services, or cloud storage.

Data Storage

All app data, such as progress or preferences, is stored **locally on your device**. It is never transmitted elsewhere.

Children's Privacy

Since LeenCode collects no data, it is safe for users of all ages. We comply with all relevant privacy laws, including COPPA.

Changes to This Policy

If we ever make changes to how we handle data, this Privacy Policy will be updated accordingly, and the app may prompt you to review it again.
