Original Timeline

IN THE BEGINNING (Source) (Source) (Source) [TL]

There was only the Aether and the Keepers. Among them were two beings who would later be known by many names. One would be known as Doctor Monty, the other as the Shadowman.

September 3rd, 5 AD [TL]
Knowing the planet had a gateway to Agartha, the Apothicons sent meteors of Element 115 to Earth. They believe humanity will one day use Element 115 to wage war amongst themselves, opening a rift that will allow the Apothicons to escape the Dark Aether.

January 15th, 1292 (Primis End 11) [TL]
The Great War between humanity and the Apothicons begins

April 14th, 1294 (Source) (Source) [TL]
Sir Pablo Marinus is saved from the clutches of a Margwa by four unknown heroes. They would later become known as Primis.

December 31st, 1299 (Source) (Source) (Source) [TL]
Together with the Keepers, Primis defeats the Apothicons, bringing the Great War to an end.

Sometime after January 1st, 1300 (Source) [ZM]
Richtofen realizes his role in perpetuating the cycle, sharing his discovery with Pablo Marinus. Pablo suggests that there may be a way to break the cycle. With Pablo's help, Richtofen teleports to the Alcatraz Pocket Dimension and freezes himself in a cryo-pod along with the gem from the Staff of Fire, awaiting the day that the Mobsters' cycle is broken.

January 1st, 1300 (Source) [TL]
Before they seemingly disappear from history, Primis instructs the Wolf King to begin building Der Eisendrache.

September 19th, 1318 (Source) [TL]
Honoring the Wolf King's dying request, his loyal servant Arthur scatters and buries his bones in the grounds of Der Eisendrache, accompanied by the King's Wolf.

September 20th, 1318 [TL]
Temporal Rifts teleport Arthur to Resolution 1295 in 2025 Angola.

John Dee is appointed as Queen Elizabeth I's astrological and scientific advisor.

1582 (Source) (Source) [HS]
John Dee meets the occultist and scryer Edward Kelley, and begins to work closely with him to study the supernatural.

1583 (Source) [HS]
John Dee and Edward Kelley purport to have spoken with angels, transcribing a language known as Enochian. The two would go on to live in Poland, where they shared their discoveries and performed spiritual conferences as well as necromancy for the rich and powerful for several years.

1589 (Source) [HS]
John Dee returns to England, meanwhile, Edward Kelley promises the Emperor of Poland of his ability to transmute metals into gold.

1592 (Source) (Source) (Source) [LK]
John Dee discovers ripples in the fabric of reality, which are in fact echoes of Group 935's teleportation experiments in 1939. This would lead him to create the Etherioscope to monitor the ripples, hearing two common words through the tears: 'Sem' and 'Richtovar'.

1597/1598 (Source) [HS]
After failing to produce any gold via transmutation, the fraudulent Kelley was imprisoned, and in late 1597/early 1598, he allegedly died during an attempt to escape.

1600 (Source) **[LK]**
The vril-infused destruction of Earth in 2025 sends a bow-wave backwards in time into John Dee's time. The corpses in his lab are turned into zombies. Dee would go on to form the Esoteric Brotherhood of Deresurrectionists to study the Aether and guard against any evil that might emerge.

1605 (Source) [HS]
With the death of Queen Elizabeth, John Dee had lost favor in England and began to live in London. He would live the rest of his days in poverty.

Winter 1608 (Source) (Source) (Source) (Source) (Source) (Source) (Source) (Source) [LK]
Experiments conducted by the Deresurrectionists render John Dee immortal and freeze the River Thames. He would watch over the Brotherhood's work as they safeguarded all realities from the warring creatures within the Aether.

Richtofen documents the personality traits of his test subjects. Dempsey’s “intellect seems low, but his will is strong.” Takeo is “still staring at the floor, muttering what sounds like some kind of proverb over and over again.” Nikolai has “recently begun responding to stimuli, but only after injections of a new serum made primarily from vodka.” Richtofen notes that their minds have been almost entirely broken, with no memory remaining of who they once were. He also reveals

his suspicions of Dr. Yena and Dr. McCain. Using Element 115 and the Vril Vessel, Dr. Richtofen forges the Elemental Shard using part of the souls of his three test subjects as well as himself. This unwittingly binds their souls to the Aether. Shortly after, Yena reports this to Dr. Maxis.

February 23rd, 1981 - CIA SAFEHOUSE E9 (Black Ops: Cold War) [CW]
After brainwashing the wounded ally of Perseus recovered from Turkey, now known as "Bell", Adler's team meets in a CIA Safehouse in West Berlin. Here they ask "Bell" to try and remember Operation Fracture Jaw on January 26th, 1968 with the intention of remembering crucial information about Perseus recovered in Vietnam. In actuality, "Bell" was never there.

February 24th, 1981 - EAST BERLIN BRIEFING (Black Ops: Cold War) [CW]
Using a list of Perseus' associates recovered from "Bell's" memory, Adler's team begins preparing for an operation in East Berlin to kill or capture a Russian Arms Dealer named Anton Volkov.

February 24th, 1981 - BRICK IN THE WALL (Black Ops: Cold War) [CW]
After passing under the Berlin Wall, Adler and "Bell" meet with Greta Keller before arriving at Franz Kraus' apartment. "Bell" attempts to add a tracker to Kraus' briefcase before his meeting with Volkov, but is captured by Kraus. The rest of Adler's team arrives and frees "Bell" before capturing or killing Volkov. They find out that Perseus has smuggled a nuclear device out of Berlin.

February 27th, 1981 - REDLIGHT, GREENLIGHT (Black Ops: Cold War) [CW]
With Volkov's intel, Hudson assigns the team to infiltrate a Soviet military complex in the Ukraine along with Alex Mason and Frank Woods. "Bell" and Woods infiltrate the facility and uncover a forgotten American operation known as Greenlight. The US planted nuclear weapons within major European cities to detonate in the event of a Soviet takeover in 1958. Afterwards, Adler's team along with Woods and Mason confront Hudson as he was aware of the Americans having planted the nuke now in Perseus' hands.

March 3rd, 1981 - ECHOES OF A COLD WAR (Black Ops: Cold War) [CW]

The MI6 enlists the help of Adler's team to root out the leaders of a network of spies embedded within European governments, with a list of suspects. After proving the identities of the three leaders, Woods and Mason are sent to assassinate their handler in Uzbekistan, Soviet General Vadim Rudnik.

March 13th, 1981 - END OF THE LINE (Black Ops: Cold War) [CW]
Through monitoring a sleeper agent named Theodore Hastings, Adler's team discovers Perseus has transported the nuclear device to a compound in Cuba. "Bell", Adler, Mason, Woods, Park, and Lazar assault the compound, finding the sleeper agent alive and the nuclear device left behind. Perseus had ordered Hastings to reverse engineer the codes, and now had the ability to detonate all of the devices across Europe. During extraction, Park and Lazar's fates are put in "Bell's" hands.

March 14th, 1981 - INTERROGATION (Black Ops: Cold War) [CW]
With no other options, Adler attempts to recover more of "Bell's" memories about Perseus in order to find where he is hiding.

March 14th, 1981 - BREAK ON THROUGH (Black Ops: Cold War) [CW]

Adler attempts to implant a memory into “Bell” of a battle in Vietnam on July 16th, 1968, in order to lead them to Perseus.

March 14th, 1981 - IDENTITY CRISIS (Black Ops: Cold War) [CW]
After several attempts, Adler finally reveals to “Bell” that they were one of Perseus’ allies brainwashed into helping locate Perseus. “Bell” decides in the end to help Adler, and reveals that Perseus is hiding out in a monastery in the Solovetsky Islands.

March 15th, 1981 - THE FINAL COUNTDOWN (Black Ops: Cold War) [CW]
With “Bell’s” help, the CIA bombs Perseus’ hideout before the nuclear devices across Europe are activated. Perseus manages to evade capture. Afterwards, Adler is ordered to kill “Bell” to clean up loose ends, and brings them to a cliff overlooking the sea. Both draw their weapons, and only one leaves.

With Rushmore's help, they free the soul of Peter McCain, and defeat Avogadro, sending him to the Hanford site. They then collect the Elemental Shard. Maxis realizes the true nature of the cycle and discovers Monty is aware of Nikolai's plan, and he is killed as he sends Sam and Eddie to Camp Edward.

5. **Sometime after January 1st, 1964 (Original Timeline) - TAG DER TOTEN (Source) (Source) (Source) (Black Ops 4)**
Primis and Ultimis wait at the campfire within the frozen forest, as Victis, led by Nikolai and Ultimis Richtofen, acquires the Vril Vessel and Apothicon Blood in order to build the Agarthan Device. With the help of Pablo Marinus, they are able to craft the device, and Nikolai enacts his plan. To end the madness and the suffering, the Aether, the Keepers, the Apothicons, Monty, Ultimis, and Primis must be erased. The paradox must be resolved. Victis vanishes along with every dimension ever touched by the Aether. Ultimis and Primis had been secretly poisoned and

Nikolai shoots a now undead Ultimis Richtofen. Sam shoots Nikolai, wiping away the last remnants of the Aether, as she and Eddie search for a better tomorrow in a new universe.
