

DIGITAL HEALTH HACKATHON

Dr. Moopen's iNEST, in collaboration with the Innovation and Entrepreneurship Development Cell (IEDC) of Kerala Startup Mission and the Indian Medical Association Student Chapter, presents the **Digital Health Hackathon 2024**. This initiative is designed for student innovators to tackle real-world challenges within the digital health domain, encouraging creative solutions that leverage technology to enhance healthcare.

Problem Statement

- Intelligent Rehabilitation

Develop applications that support healthcare professionals throughout the rehabilitation process, improve patient outcomes, and streamline overall workflows and procedures.

Rules and Regulations for Digital Health Hackathon 2024

1. Team Composition:

- Teams must consist of 2 to 4 members.
- At least one member must have a medical background (e.g., medical student or healthcare professional).

2. Eligibility:

Open to students currently enrolled in undergraduate or graduate programs across diverse fields such as medicine, engineering, computer science, biotechnology, and related disciplines.

3. Registration Fee:

- Teams are required to register by paying a registration fee of ₹200.

4. Intellectual Property Rights:

- All intellectual property (IP) rights for the concepts and solutions presented belong to the participants.

- Teams selected for incubation support at Dr. Moopen's iNEST may need to discuss IP terms and further development agreements with iNEST to avail the funds and
