Abstract

The Abstract should succinctly convey the research's objective, methods, key findings, and significant conclusions which consist of 150-250 words. The abstract must be capable of standing independently. Avoid including references. Non-standard or rare abbreviations should be minimized; however, if they are crucial, they must be defined upon their initial use within the abstract. Following the abstract, five key terms should be provided. These keywords should be comprehensive enough to facilitate the classification of the paper by subject area and serve as headings in a keyword index of the volume. (using Abstract | Malaqbipublisher.com style heading)

Keywords: Keyword 1, Keyword 2, Keyword 3, Keyword 4, Keyword 5 (3-5 Keywords -> Capitalize Each Word using Abstract | Malaqbipublisher.com style heading).
