Note: I have researched to the best of my ability the above-named players, but of course with the older premierships I am relying on old information and most times, on the end of year premiership photos. If that list or photo includes more than the actual team, I have included everyone as a premiership player, most photos have only included a couple extra. If you have any information that may help me, please pass on.

The stats from 1990 are correct .
