4C's & CLASSROOM REDESIGN | Summer Tech Camp 2017

Session Time	Session Topic	Description
8:00-9:30	Creativity	In this session we will highlight and use tools that promote student creativity and innovation. You will learn how your students can try new approaches to demonstrate learning.
9:30-11:00	Collaboration	In this session we will work as a team to learn ways to differentiate using collaboration tools to accomplish a goal.
11:00-12:30	Critical Thinking	This session will focus on questioning and tools that promote critical thinking skills to look at solving problems in new ways.
1:30-3:00	Communication	This session will focus on tools for sharing thoughts, questions, ideas, and solutions on a global scale.
3:00-4:00	Classroom Redesign	What does the 4 C's Classroom look like? In this session you will have the opportunity to take your current classroom and redesign it using Co Spaces.

GCE BOOT CAMP | Summer Tech Camp 2017

What is the Google Educator Certification? The Google Educator Certification is designed for educators and classroom teachers who wish to demonstrate proficiency in using Google for Education tools. The Level 1 status indicates that an educator is able to successfully implement G Suite for Education into their teaching practice in order to enhance teaching and learning. The Level 2 status indicates that an educator is able to successfully integrate a wider range of Google for Education tools and other technologies in order to transform their teaching practice.

Why certify?

- The learning is practical and centered on classroom integration.
- The examination is situation based and assesses your ability to authentically utilize Google Applications in classroom settings.
- The Google Certified Educator badges validates learning.

Option 1: Level 1 Certification*	Option 2: Level 2 Certification**
What we have done and how will we help you prepare? We have: • identified the essential skills to pass the Google Certified Educator Level 1 and Level 2 exams. • prepared a Google Form that automates a personalized learning plan for each attendee based on the essential skills. • aligned targeted resources to scaffold learning within each personalized learning plan. • designed scenarios for practice with Google Applications that reflect the format of the Google Certified Educator exam and authentic classroom situations. We will: • be available for specific questions and support. • provide you with advice for taking the exam(s). • reimburse for the cost of the exam(s) that you pass. You will: • have the opportunity to work with like-minded colleagues striving to improve their classroom practices with Google Applications and pass the exam(s). • develop the skills necessary to authentically integrate Google Applications into your classroom and demonstrate the proficiency required to pass the exam(s).

*Fast Track Option: While potentially void of community and direct support from your Digital Learning Specialist, teachers may work on the Level 1 certification on their own with full access to the tools and resources described above.

**We encourage those choosing this option to have the level 1 certification. If you have not already obtained your level 1 certification you can utilize the "Fast Track" prior to tech camp.
