

We are thrilled to invite children and teens to our upcoming Social Skill Groups!

Each 10-week program focuses on strengthening communication skills, fostering peer relationships, and promoting positive social development. Led by licensed special educators, these sessions are designed to be interactive, supportive, and fun. **Our small-group format ensures individualized attention, and spaces are limited to maintain a high-quality experience for every participant.** Below, you'll find specific details for each group, organized by state, along with registration links.
