

Privacy Policy

****Effective Date:** 10-04-2024**

****Introduction****

Welcome to Kids e-Learning! We are committed to protecting the privacy of our users, especially children. This Privacy Policy explains how we collect, use, and disclose information from users of our mobile application, Kids e-Learning.

****No Data Collection****

Kids e-Learning prioritizes user privacy and does not collect any type of data from its users. This includes:

- * Personal information (names, emails, location data)
- * Device information (model, operating system)
- * Usage data (app features used, time spent)

****Functionality and Security****

The app functions entirely on the device and does not transmit any information externally. This ensures a completely private learning environment for children.

****Security Considerations****

While we don't collect data, it's important to note that no app can guarantee absolute security. It's recommended to:

- * Keep your device's operating system updated with the latest security patches.
- * Use a strong device password or PIN.
- * Supervise children's use of the app to ensure safe and appropriate learning.

****Changes to this Privacy Policy****

We may update this Privacy Policy from time to time. We will post any changes on this page and encourage you to review the Privacy Policy periodically.

****Contact Us****

If you have any questions about this Privacy Policy, please contact us at shahidali7713377@gmail.com

****Compliance with Play Store Policy****

This Privacy Policy is designed to comply with the Google Play Store's Families policy, which requires transparency and minimal data collection practices, especially for apps targeting children.

****Additional Notes****

- Since the app doesn't collect data, you might not need to update the Privacy Policy frequently unless the app functionality changes. However, it's good practice to review it periodically.
