

Hi Keosha,

Reaching out to share a 3-step Instagram carousel tactic you could use to increase bookings for your "Voxer For a Day" service.

The tactic works by tapping into the thoughts and sentiments of overwhelmed women and using their exact words in carousel posts to establish trust and create a sense of connection with them, making them more interested in trying out "Voxer For a Day."

Mind if I send a quick video showing how exactly you could use this tactic?

Best,
Nooh
