

NTI Assignment

Environmental Science

Research a recent (within a year or so) article related to a recent topic we have been discussing IN CLASS lately!

You may do this on your own paper and hand it in when returning to school, OR you may share it with me online. If sharing online, please title it "NTI 1 Env Sci Your Name." Insert your own name where it says "your name."

Student Name:

Name of Article:

Author:

Date Article was published:

Webpage/Organization Home page address:

I. Summary - ~The article In a Nutshell~

First, what was the overall "theme" of this article? In other words, what purpose or overall goal was the author trying to accomplish by writing this article?

Provide an overview of the article, referring to crucial statistics (power statements) related to the issue or overall theme.

II. Reflection/Reaction - ~Having a conversation with someone about it~

Finally, write a brief personal reaction to this article! What are your thoughts/concerns after reading this article? What did you learn or still want to know from this article?
