SUMMARY

Motivated Engineering Student planning to pursue a Bachelor of Science in Mechanical Engineering at Washington State University. Strong foundation in math, physics, and core engineering principles with proven problem-solving skills and a strong work ethic.

EDUCATION

Engineering, Associate of Science

Olympic College - Bremerton, WA

Expected June 20xx

GPA 3.7

Leadership/Activities/Achievements

President, Engineering Club

September 20xx - June 20xx

- Coordinate club speakers and events

SKILLS / CERTIFICATIONS

Software and Tools: AutoCAD, Civil 3D, MATLAB, Excel, MS Office, Google Workspace

Languages: Fluent in Spanish - Read, Write, Speak, Listen

Engineering Tools: Surveying equipment, traffic analysis tools, [Add others]

Programming: Python, C++, [etc. if applicable]

Core Competencies: Technical documentation, data analysis, project coordination

EXPERIENCE

Engineering Intern, Kitsap County, Port Orchard, WA

June 20xx - September 20xx

- Assisted county engineers with infrastructure and public works projects.
- Supported project planning, design review, and documentation preparation.
- Conducted site visits and gathered field data for analysis and reporting.
- Reviewed engineering drawings and specifications for compliance with standards.
- Collaborated with cross-functional teams to support project timelines and deliverables.

Engineering Intern, Dept. of Transportation, Seattle, WA

June 20xx - September 20xx

- Contributed to transportation planning and roadway improvement projects.
- Assisted with traffic analysis, data collection, and technical reporting.
- Supported engineers in reviewing construction plans and project estimates.
- Participated in field inspections to ensure safety and regulatory compliance.
- Utilized engineering software tools to assist with design and analysis tasks.

Volunteer, Community STEM Outreach Program

January 20xx - March 20xx

- Assisted in organizing STEM workshops for middle and high school students.
- Led hands-on activities demonstrating basic engineering and physics principles.
- Mentored students in problem-solving and teamwork during design challenges.
- Supported event setup, logistics, and coordination with program staff.

Barista, Starbucks

January 20xx - June 20xx

- Delivered exceptional customer service by greeting guests and building rapport.
- Efficiently operated point-of-sale system, handling cash and credit transactions with accuracy.
- Trained new baristas on drink preparation, service standards, and policies
