(Foundation, 2016).

2. Method

Provide sufficient detail methods to allow the work to be reproduced. Methods already published should be indicated by a reference: only relevant modifications should be described.

Methodology text -methodology text -methodology text -methodology text -methodology text -methodology text -methodology text -methodology text -Methodology text -methodology text -methodology text - methodology text - methodology text (Aparna et al., 2016).

2.1. Size of Dataset

Methodology text – size of dataset - size of dataset - size of dataset - size of dataset - size of dataset - size of dataset – Methodology text – size of dataset - size of dataset - size of dataset - size of dataset - size of dataset – Methodology text – size of dataset - size of dataset - size of dataset - size of dataset - size of dataset - size of dataset – (Gromacs, 2016).

Formulae should be numbered consecutively throughout the manuscript as Equation 1, and Equation 2. In cases where the derivation of formulae has been abbreviated, it is of great help to the reviewers if the full derivation can be presented on a separate sheet (not to be published).

Formulae should be centered and numbered.

$$f = \frac{1}{2\pi\sqrt{LC}} \quad (1)$$

Where L is the length of river, C is the coefficient of runoff – Result text – Result text – Result text – Result text:

$$P_{Total,Gen} = \sum_{j=1}^m P_{Gen_j} \quad (2)$$

Where Pgen is the generated precipitation - Discussion text - Discussion text - Discussion text - Discussion text - Discussion text - Discussion text - Discussion text - Discussion text - Discussion text - Discussion text – (Rester, 2008).

2.2. LPG Applications in Vehicles

2.2.1. ORF primary frames

Methodology text – size of dataset - size of dataset - size of dataset - size of dataset - size of dataset - size of dataset – Methodology text – size of dataset - size of dataset - size of dataset - size of dataset - size of dataset – Methodology text – size of dataset - size of dataset - size of dataset - size of dataset - size of dataset – Methodology text – size of dataset - size of dataset - size of dataset - size of dataset - size of dataset.

Table should be original (not as embedded figure), no vertical border (only horizontal border and bold), use single line spacing, font size 11 as shown in Table 1. Tables should be centered and numbered accordingly.

Table 1 Number of receptors in each container

Experiment	Container	Receptor
1	50	28
2	100	14
3	150	9
4	200	7
5	250	5

Short explanation regarding the Table's meaning and significant – Experimental methods can be supported with a diagram, clearly shown the process and completed with legend, scale/dimension if required (Figure 1).
