Dear Dr. _____,

My name is _____ and I am currently a _____ in high school. I am emailing you to ask if you would consider me for a ___ internship in your laboratory.

I am interested in the intersection between medicine/healthcare/neuroscience/machine learning/AI/etc. and hypothesis-driven laboratory research and I plan to go into (career, e.g. healthcare) in the future. It is for this reason that I would be very excited to have the opportunity to contribute to your laboratory's research in/on ____. I am particularly interested in _____. Last summer I _____ . I was introduced to ___(subject/topic)___ in my ____(class) where I learned how to _____. I really want to explore this subject further by being able to conduct research first-hand.

Additionally, I would be highly open to attending meetings, journal clubs, or presentations to learn more about your research area.

I have attached my resume to this email for your consideration. Please feel free to contact me if you have any questions or would like any additional information.

Thank you for your time and consideration of my request.

Sincerely,
[Your name]
(include portfolio website if you have one)
