

Feedback Bounty Template Do's and Dont's

Category	Do's	Don'ts
Basics	Make a copy of this doc and change the file name to "Product Feedback_<Company Name>_<Your Name>"	Use the incorrect format
Feedback	Actionable and tangible feedback	Provide vague feedback
Major topics to include	<ul style="list-style-type: none"> • UI/UX Issues and suggested ways to improve • Good to have features 	<ul style="list-style-type: none"> • Intro to the project • Describing basic functionality
Comprehensiveness	Include all relevant flows of the product/platform, even if not mentioned in the "suggested flows to review" section	Miss any of the relevant flows of the product
Screenshots / pictures	<p>Include screenshots to supplement your feedback, especially if related to existing UI/UX flows in the product</p> <p>Use red coloured arrows/boxes to point out stuff in the screenshots, if needed</p>	Giving feedback without adding screenshots, and making it confusing for the reader
Language and tone	Try to be direct (ie to the point) and objective in wording your feedback	Be vague, use jargon or try to use filler words to increase the word count
Access to this file	Should be viewable at the time of submission - set sharing permissions to "anyone with the link can view"	-
