Greetings [Brand Name],

Did you know that the Facebook algorithm can see right through AI-generated ad copies?

The truth is, those AI ad copies will never take your sales to your desired heights.

But here's a little secret: top brands that reach the peak use handcrafted ad copies that understand the pain, desire, and situation of every one of their targeted customers.

Imagine what your sales could look like if you had a custom ad copy that sells like crazy.

What if I told you I can create one for you, and it won't cost you a single penny?

Don't get left behind while others soar.

Ready to take your brand to the next level? Drop a YES and let's get started.

Your competitors won't know what hit them.

Best,
Nilesh P.
