

VEG FSU is dedicated to community-building on campus and across Tallahassee. Our members learn about the ways veganism is beyond a diet, and hold conversation on ways to align lifestyle and personal morals.

We support vegan and vegetarian students by providing meal ideas and pointing to local resources to further assist if needed.

In applying our values to actionable steps, VEG FSU advocates for social justice, reproductive justice, indigenous rights, farmworker and labor rights, among others. We encourage our members to recognize the impacts we can make as individuals along with the strength of community.
