

Applicant name:

Proposed supervisor(s) name(s):

Research proposal title

1. Overview of research area and literature
2. Key research questions and project objectives
3. Research design, methodology and data analysis
4. Importance and significance of the research topic
5. Tentative project timetable
6. References

Note: The research proposal should be around 2000 words long (excluding references). The research proposal can be written on a project that is advertised on the IDEALAB website or on your own project idea. If you want to propose your own project idea, it is mandatory to contact and get provisional agreement from a potential supervisor at one of the IDEALAB institutions prior to application.
