The Hopedale Public Schools Office of Special Education oversees the delivery of specially designed instruction and/or accommodations for students with disabilities.

The Hopedale Public Schools Office of Special Education and 504 Teams are committed to providing specially designed instruction and accommodations to students with disabilities, ensuring they have equal access to quality education. We are committed to supporting students with disabilities and their families through the evaluation and eligibility determination process for Individualized Education Programs (IEPs) and 504 Plans, as well as the identification of necessary special education services and accommodations within their educational environment.

The Pupil Personnel Office provides various support services for students with disabilities ages 3-22 years of age. The focus of these programs and services is to provide each student with the necessary skills to access the general education curriculum and to reach the highest level of independence.

Our mission is to enhance the growth of the whole child following the legal regulations put forth in the Individuals with Disabilities Act (IDEA) while implementing the Massachusetts Curriculum Frameworks/Common Core Standards.

Hopedale boasts a dedicated staff of highly qualified professionals who design and coordinate services for students with disabilities in a variety of settings and always focuses on the least restrictive environment.

Quality programming for students with disabilities requires continuous planning, support, and participation of the home and school. We look forward to working with you as a member of the Team to provide a happy and successful school experience for your child.

Pupil Personnel Services oversees a variety of programs in the Hopedale Public Schools that include:

- Special Education
- Home/Hospital Services
- English Language Learners

- Education for Homeless children ([McKinney-Vento Act](#))
- Home Schooling

The information available on this website was prepared to provide you with information on a variety of topics that may be of interest, as well as opportunities to seek further information which can be customized to your needs. We hope you find it helpful as we work cooperatively as a team to provide quality education for children with disabilities in Hopedale. We welcome your input, comments, and questions, and thank you in advance for your support.
