

# Privacy Policy for Heal Buddy

**Last updated: April 2026**

Heal Buddy does not collect, store, or share any personally identifiable information from users.

## Information Collection and Use

Heal Buddy provides predefined mood tracking exercises and performance visualization features. The app does not require users to create an account or provide personal details such as name, email address, phone number, or location.

The app may store basic usage-related data locally on the user's device to support app functionality such as viewing exercise progress and performance patterns.

## Firestore Services

Heal Buddy uses Google Firestore services to support application functionality. Firestore may collect limited technical information such as:

- device information
- app performance data
- crash reports

This information helps improve app reliability and performance. No personally identifiable information is collected by the app developer.

For more information, please review Firestore Privacy Policy:  
<https://firebase.google.com/support/privacy>

## Data Sharing

Heal Buddy does not sell, trade, or share user data with third parties.

## Children's Privacy

Heal Buddy does not knowingly collect personal information from children under 13 years of age.

## Changes to This Privacy Policy

This Privacy Policy may be updated periodically. Updates will be reflected on this page.
