

Where is Michelle Peluso?

Demand Nike Negotiate a Fair Contract with Asian Garment Workers!

Join our action to stand in solidarity with Nike Asian garment workers! Union garment workers from Asia and unions in the U.S. have a [message](#) for Nike: **“Sign an enforceable agreement to raise wages and guarantee organizing rights for the workers who make its products.”**

Many garment workers in South and Southeast Asia, most of whom are women, are earning less than \$1 an hour, while Nike grows richer every year off of their labor. Garment worker unions across Asia have been organizing for living wages and labor rights and we're here to support them..

Workers have been trying to get in touch with NIKE board member Michelle Peluso since March of 2025. After repeated attempts to contact her by letter, social media and in person at the Revlon headquarters, we are growing increasingly concerned that she has not responded. Now, labor allies across the U.S. are coming together to investigate CEO Peluso's disappearance. **Join the fight. Join the search.**
