National School Counselor Week Announcement (Day 3): This week marks National School Counseling Week, and we want to take a moment to recognize the incredible work of our very own Mr. Thompson! Mr. Thompson is dedicated to students and staff. He is always willing to help, and he always takes time to listen. Thank you for giving your all on a daily basis to our school community. You are always giving your time and energy to everyone! Please tell Mr. Thompson, thank you when you see him this week.

Black History Month Moment: Wednesday: To continue the recognition of Black History Month, we wanted to recognize some amazing achievements by African Americans that you may not have known about: The blood bank – Dr. Charles Drew invented a technique for the long-term preservation of blood plasma. Prior to his discovery, blood could only be stored for two days. Dr. Drew also discovered that everyone has the same type of plasma, regardless of blood type, making plasma transfusions universal.
