

Instructions for Pre-K - 5 Students and their Families

Attached you will find a combination of online and traditional Remote Learning activities to complete in order to prevent learning loss during this time. Students and Teachers will be working together using a Remote Learning Environment.

What does this mean?

- It means that students will continue learning with the same teachers to meet the Manchester Academic Standards.
- It means that students will continue to get a school breakfast and lunch every day delivered to the bus stop closest to your home.
- It means that students will be responsible to set aside time for learning every day. Yes, we are taking attendance.
- For students with online access, teachers will be monitoring online work and will expect to see students online each day and showing their best effort. In addition to the online activities, students are expected to complete the traditional activities you will find in this packet. **All students will need to bring their completed materials with them when they return to school.**

Pre-K:

- Please read the activities from the attached Learning Grid to your preschooler and let them choose one or more learning activities they would like to do with you each day. Please discuss and circle each activity with your child when completed.
- Please read to your child every day. Then let your child read to you using the pictures on each page to make up their own story. Have them draw a picture about what they have read and bring them to school when we return so they can show their work to their peers and preschool teachers. Children love to show off their masterpieces!
- Pick one activity from the Fun at Home Activity Sheet and one from the Pre-K Letter Activities at home sheet to complete each day

Grade K - 5:

- Reading/Writing: Please find the attached Reading and Writing Home Learning Calendar for your student's Grade Level and complete the daily tasks.
- Math: Please have students complete one Math Daily Math Journal page and related activities each day.

Online and Traditional Learning questions should be sent to your child's teacher or school email address (schoolname@mansd.org) example: jewett@mansd.org

Additional learning activities and online storytime links will be posted at www.mansd.org
