How to know if it is time to buy a new car?

In life I had many cars that I don't even remember which ones.

BUT...

Still remember the time when I instantly needed new one

Here it is:

One day I was preparing for winter and I found out my car needed a full check.

You know what I mean. Check all parts of the car if they are still good for a winter.

If it will survive the winter or not.

Was going to work and almost **DIED**. It wasn't that there was ice on the road.

I had a worse problem. Needed to call the town truck and when we arrived at the mechanic shop.

He said that it will cost \$7K. I instantly got home and found a new one. That has been used by the safest drivers in the world.
