Dear MHS Community,

This morning, Wednesday, September 17 we experienced an evacuation event on the Massabesic High School campus. at approximately 9:40 am. This evacuation event was caused when our campus safety system activated the alarm. The Waterboro Fire Department and our operations department responded to the alarm. Our students and staff exited the building safely and efficiently while the alarm was handled. An update on our reentry to the building will be provided as available.

Regards,

Ty Thurlow
