

MATRIX MECHANICAL GROUP

Saint John, New Brunswick

RED SEAL ELECTRICIAN

\$35–\$45 an hour | Permanent, Full-time

About Us

Matrix Mechanical Group is a growing mechanical services company in Saint John, NB, specializing in HVAC, plumbing, and gas work - residential and commercial. We're building something here, and we need skilled tradespeople to build it with us.

The Role

We're looking for a Red Seal Electrician to join our mechanical install and service team. You'll handle the electrical side of HVAC and mechanical installations - wiring heat pumps, furnaces, boilers, ERVs, panel upgrades, and control circuits across residential and light commercial projects in the Greater Saint John area.

This is steady, meaningful work with a company that does things right. You'll have a well-equipped service vehicle, a strong team around you, and the autonomy to do your best work every day.

What You'll Do

Wire & Connect

- Wire and connect HVAC equipment - heat pumps, furnaces, boilers, air handlers, and ERVs
- Install disconnects, breakers, and dedicated circuits for mechanical equipment
- Run conduit, MC cable, and low-voltage wiring for thermostats and controls

Service & Troubleshoot

- Diagnose and repair electrical faults on mechanical systems
- Troubleshoot control circuits, contactors, relays, and variable speed drives
- Perform panel upgrades and service changes to support new mechanical equipment

Keep It Right

- Pull electrical permits and coordinate inspections
- Document all work clearly - job notes, photos, and as-built records
- Maintain your vehicle, tools, and materials inventory

What We're Looking For

- Red Seal Certification in Electrical (Construction Electrician)
- Experience wiring HVAC and mechanical equipment (heat pumps, furnaces, boilers)
- Comfortable reading electrical drawings and mechanical schematics
- Strong troubleshooting skills - able to diagnose issues systematically
- Knowledge of the Canadian Electrical Code and local inspection requirements
- Valid driver's license with a clean driving record
- Professional attitude and strong customer communication

- Experience with panel upgrades and service changes is an asset

What We Offer

- \$35 - \$45/hour, based on experience and certification
- Health and dental benefits
- RRSP contribution
- 3 weeks paid vacation
- Company service vehicle - fully equipped
- Tool and boot allowance
- Cell phone allowance
- Consistent schedule - Monday to Friday with predictable hours
- Ongoing training - manufacturer certifications and professional development
- Supportive team - you'll work alongside people who genuinely have your back
