

CALL FOR STAFF MOBILITY TO WROCLAW UNIVERSITY OF SCIENCE AND TECHNOLOGY, POLAND

Wrocław University of Science and Technology (Wrocław Tech) was established in 1945, mainly as a result of the involvement of the academic staff of the now-defunct Technical University of Lviv and the Jan Kazimierz University in Lviv, who adapted the destroyed buildings of the German School of Technology - Technische Hochschule.

Today we continue the tradition of these prominent Polish universities and develop in close cooperation with the leading companies of Lower Silesia. We are one of the largest and best technical universities in the country, one regularly ranked among the best in the national rankings.
