

EC Process for Behavior Consultation

ECSE Teacher has a student with needs in behavior and needs more ideas and strategies.

ECSE Teacher contacts Joni S. to ask for ideas, strategies, interventions. Teacher tries ideas, etc.

If observation is needed, it can be done virtually or arrangements can be made for Joni to visit the site. Intervention(s) suggested and data kept on implementation.

If after review of data with Joni and inadequate progress is made, Joni and ECSE Teacher contact ECSE Program Specialist (Shawn).

Shawn connects with Sheri M. about referral (form filled out by team).
