

Bridge with Patty! Privacy Policy

Effective date: March 18, 2026

Bridge with Patty! respects your privacy. This Privacy Policy explains how the Bridge with Patty! mobile app handles information when you use the app.

1. Information We Collect

We do not require you to create an account or sign in to use the app.

We do not collect personal information such as your name, email address, phone number, precise location, contacts, photos, camera data, or microphone data through the app.

2. Information Stored on Your Device

To provide app functionality, the app stores certain information locally on your device, including:

workbook progress

streaks and achievements

locally saved purchase/unlock status for workbook content

basic app state needed for your experience

This information is stored locally on your device and is not sent to us by the app.

3. In-App Purchases

The app offers in-app purchases for certain workbook content. Payments and purchase processing are handled by Google Play or Apple, depending on your device and platform.

We do not receive your full payment card or banking information. The app only uses purchase status and product identifiers as needed to unlock content you have purchased.

Google Play and Apple may collect and process information under their own privacy policies.

4. Third-Party Services and External Content

The app may:

display or link to YouTube video content

open external links, such as the Bridge with Patty! website or YouTube, in your device's browser or apps

When you use third-party services such as YouTube, Google Play, Apple, or an external website, your use of those services is governed by their own privacy policies and terms.

5. Analytics, Advertising, and Tracking

We do not use our own analytics tools to track you across apps or websites.

We do not show third-party ads in the app.

We do not sell your personal information.

6. Data Sharing

We do not sell, rent, or trade your personal information. Because the app does not maintain its own user account system or backend for app data, the app does not share your locally stored progress data with us.

7. Data Retention

Information stored locally in the app remains on your device unless you delete the app, clear app data, or remove the information through your device settings.

8. Children's Privacy

Bridge with Patty! is intended for a general audience, including older children. We do not knowingly collect personal information from users through our own servers.

9. Security

We take reasonable steps to limit data collection and to keep app functionality focused on local, device-based storage where possible. However, no method of electronic storage or transmission is completely secure.

10. Contact Us

If you have questions about this Privacy Policy, contact:
bridgewithpatty2020@gmail.com

11. Changes to This Privacy Policy

We may update this Privacy Policy from time to time. If we make changes, we will post the updated version at the privacy policy URL associated with the app.
