ABSTRAK

Put your abstract here. Use single spacing. Abstract is written preferably from 100 to 200 words. The abstract should be clear, descriptive, and provide brief information about the problem. A statement regarding the methodology and a summary of results should generally follow this. The abstract should end with a comment on the significance of the result or a brief conclusion. Articles can be written in English or Bahasa Malaysia.

Kata Kunci: Maksimum 5 kata kunci dipisahkan dengan tanda koma (,).

PENGENALAN

Use Times New Roman 10. Do not indent the first line of a paragraph following a heading or subheading. Use single spacing for the main document. Note that there is only one space between sentences. Papers should be submitted online through the kNovasi2025 apps, and other requirements should be followed as in the Guide to Authors. All extended abstracts will be included in the kNovasi 2025 Proceedings. Selected high-quality papers will be invited for submission to a special issue journal, and authors will be notified by the committee (Khataee & Davoudi, 2018).

The manuscript article should be written in English or Bahasa Malaysia in the font of Times New Roman, which includes the following: Introduction, Results and Discussions, Conclusion, Acknowledgement, and References. Manuscripts should be prepared via the Microsoft Word processor. Do not indent the first line of a paragraph following a heading or subheading. Use the APA reference style (Yoon et al., 2017) for the extended abstract (Korytov, 2018).

HASIL DAN PERBINCANGAN

The number of pages for the extended abstract may vary from a minimum of 2 pages to a maximum of 4 pages in A4 size. Authors are required to strictly adhere to this limit. Manuscripts with fewer than 2 pages or exceeding 4 pages may not be included in the proceedings.

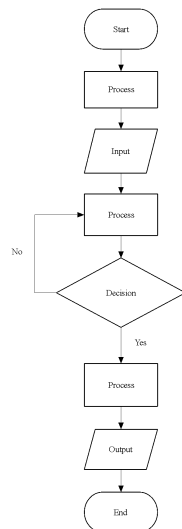

Format and save your graphic images using a suitable graphics processing program that will allow you to

resize them and adjust the resolution settings. Use SI as primary units. Be sure that the symbols in your equation have been defined before the equation appears or immediately follows. Number equations consecutively with equation numbers in parentheses flush. First use the equation editor to create the equation. Use the table format as shown below:

$$\int_{-\infty}^{\infty} \psi(t) dt = 0 \quad (1)$$
