

# Greymouth by Alex Co

My special place would be Greymouth because I have lived here my whole life most of my family live here and we also think what Greymouth is very safe.

My family love Greymouth because me and my brother were born here and my mum and dad loved that so much that's why they think it is a special place. My grandma and grandad live here and also my other grandpa died here so this why Greymouth is special to me and my family. I also live close to the place where my grandpa died. He died in the hospital he died of being sick for a long time. We also love our house because we have lived there for a very long time and it is very safe there and that is part of the reason we love Greymouth so much and we will never ever move from Greymouth because we love it so much. When my mum and dad moved to our house it was a huge mess with bushes and everything like that and then they cleared it and it help them see the beautiful Greymouth. The best thing about Greymouth for me would be that my family live here or lived here and I think that would be the same for my family. I think that me and my family love Greymouth a lot. I think Greymouth is the best place ever.
