

## **Commit to Your Cause**

*Code For A Cause gets local for AngelHack's 10th Global Series*

### **Overview**

Commit to Your Cause! Code For A Cause is welcoming nonprofits worldwide to join us at our 10th Global Hackathon Series, to inspire our global community of developers, designers and entrepreneurs to leverage their skills for good and give back to their local communities.

We'll be rolling out the AngelHack-red carpet for nonprofits at each and every event, all we ask in return is that the nonprofits create a challenge to inspire our hackers! To nominate your nonprofit, please fill out [this form](#). Selections will be accepted on a rolling basis.

### **Example Nonprofit Challenges and Prizes**

#### *Example Challenges:*

- Hack a solution that will help women and girls gain insight into spending, saving, loans, investments and other aspects of personal finance
- Hack a solution that allows the disadvantaged to gain access to basic financial services, such as credit and deposit-taking through microfinancing options
- Build a tool that makes it easier for us to collect and analyze data from our implementation partners
- Build a web app that can easily be used by our staff to record and share important information about our services

#### *Example Prizes:*

- The top idea in this category will receive a \$500 cash prize and receive 3-month mentorship and in-field support from our head of IT
- 3 months' free coworking space at our nonprofit, or local co-working partner
- Site visit to local youth organization to learn about your community hands on with a leader from our executive team
- Lunch or coffee with a high-profile donor or Board member from your nonprofit
- Special experience or product from a company that supports your nonprofit

### **Benefits:**

Selected nonprofits will receive a full city-standard sponsorship, pro-bono. More details about sponsorship benefits are available [here](#).
