

Planting the Seeds

A 3-P Professional Development Opportunity for K12 Educators

Register today

<https://bit.ly/PlantingSeeds-Feb22>

Free to eligible teachers, but you must register to participate. Space is limited to 20 teachers.

Eligible participants:

- K-12 educators are encouraged, but not required, to enroll with other teachers from their school
- Cross-content and grade level collaboration is welcome

Benefits of Participation:

- Dinner will be provided
- 3 SCECHs for participation in the PD
- Teachers receive \$50 participation stipend for attendance
- Teachers will be eligible to apply for a \$250 grant to support 3P projects during the 2022-2023 school year
- Ongoing support during the school year available as needed

4:00 - 7:30 pm

St. Clair RESA, 499 Range Rd, Marysville, MI 48040

Using Gardening and Growing Projects in the Classroom to Advance 3-P and Place-Based Learning

Join MiSTEM Region 6 and Discovering PLACE for this professional development (PD) opportunity for K12 educators offered in partnership with St. Clair RESA. We will focus on how teachers can leverage growing in the classroom, at school, and in partnership with the community to deepen learning and build community connections that enrich students' learning. Participants will be introduced to gardening resources, local partners, and place-based education pedagogical practices.

Workshop Outcomes:

Participants will...

- Be introduced to the concept of place-based education
- Become familiar with methods and strategies to incorporate gardening and growing projects into teaching strategy
- Learn about resources to support student learning and engagement through gardening and growing projects
- Learn how community partners can support students becoming active participants in and stewards of their communities
- Participate in planning time to identify opportunities to integrate these strategies into their classrooms

Sponsors:

These materials were developed under a MiSTEM Network grant awarded by Michigan Department of Education.

Discovering PLACE is a regional hub of the [Great Lakes Stewardship Initiative](#).
