

Project brief

Real-Time Faith Dialogues Reimagined

Status **In progress** ▾

Email: Info@interfaithbox.com

Founder & CEO: ATF BULL

Overview:

InterfaithBox connects users of diverse beliefs through live, moderated 1-on-1 religious debates. It's like Omegle—but purpose-driven, structured, and respectful.

Key features:

Matchmaking by Faith or Topic

Users can choose to engage across or within belief systems.

Video or Text Format:

Flexibility for comfort, accessibility, and privacy.

AI Referee in Real Time:

No need for a moderator - our GPT-powered system ensures fair play.

Instant ratings & feedback:

Every debate ends in a core and written feedback to improve over time.

Respect comes first:

Toxicity is filtered using AI-powered moderation. Only respectful, good-faith debate is allowed. Users can be flagged or ranked based on behavioral patterns.
