09-03 Class Summary: Computers and Technology Class

Class Summary:

- We reviewed the DAILY EXERCISE for today- SENSA. Numerous students are NOT completing these each day and are losing points.
- Mr. Burkhard reviewed how to RESEARCH using Chat GPT and set students to their first RESEARCH PAPER ASSIGNMENT- THE RESEARCH PAPER OUTLINE, where students are required to do some research into the founding of their favorite company, some changes for their company over the years and information about their company in 2025. All of this information has to include a CITATION LINK for further use when writing our paper.
- Students were given almost an hour's worth of work time to complete their GOOGLE GRAPHING PROJECT, work on their RESEARCH PAPER OUTLINE and begin work on their FAVORITE THING RESEARCH PAPER.
- Before next class period starts, students are required to complete the DAILY EXERCISE- QUESTIONABLE GRAPHS. As this exercise has two problems and graphs, it will be worth 10 points.
