

# **CHOICE BOARD OPTION**

## **DETAILS**

Once you pick an option, you can either search for a blank template online to use or create your own to begin designing! Be sure to meet the requirements as listed below. When you're done, put all of your photos on one doc & label what options you picked.

*Check the rubric on the next page before you submit.*

### **Pennant Flag**

Your flag should be colorful and represent our school. It needs to be more than just the school mascot name on it.

### **T-Shirt**

The t-shirt should be fun and eye catching. It needs to have more on it than our school name. Make it interesting!

### **Yard Sign**

People will be driving by the sign quickly, so while it shouldn't be boring, it also shouldn't be too busy. Size: 24" x 18"

### **Senior Spotlight**

Start by creating a workspace that's 4" x 6". You need a spot for the student name, photo, and fun facts such as future plans, favorites, etc. Be sure to use school colors and easy to read fonts. This should be more than just a solid color with text.

### **Prom Ticket**

Open a blank workspace that's 3" x 7" to use as your template. You are able to pick a theme such as "A starry night" or "Gatsby" to help design your ticket. You may look for inspiration, but don't copy something that's already done.

### **Pep Rally Items**

To complete this task, you'll need to design all 3 items. Look for templates online to get started. They should all be in school colors and have a fun design to them. Students would be using these to cheer on the team!

You must select three items to design. One from the top row, one from the bottom row, and the last is your choice!
