### **Building and Zoning Department**

Nothing to report on Building and Zoning.

### **Public Buildings and Grounds Department**

Trustee Shine shared that there have some complaints about the landscaping around the train station and other areas. He obtained another proposal from Landscape Concepts Management (LCM) for mowing and maintenance, along with two improvement proposals (for around the train station and the PGA and the Overlook / Golf area). The price was comparable with what we are currently paying TruCut for maintenance. LCM seemed to understand the Village's needs more clearly and could possibly give better service for a similar payment. The IL PGA has not signed with TruCut yet and would be open to considering a new contractor.

Trustee Landman moved to award the annual maintenance contract to Landscape Concepts Management for \$8,912, which will also be negotiated with the IL PGA as one contract. Trustee Kalogerakos seconded the motion.

### **Finance and Administration Department**

Trustee Miller shared that our financial position remains strong. President Farr reminded the board that budget approval will occur during our April meeting.

Nothing to report.

### **Utilities Department**

Trustee Landman and President Farr met to discuss the lead service line project. There are 14 suspected, 40 lines that are undetermined, 113 lines that are definitely copper and will not need repair. These numbers will be reported by April 15. Once that report is complete, Trustee Landman will lead the effort to determine more detail on the 54 lines that may need to be addressed. President Farr shared that any work that would need to be done is not until 2028.
